## 1) Editor's Greeting:

Hello, everyone! This 16th issue of our free monthly email newsletter for Computer Education, Training, & Tutorial Resources gives you the latest Free Interet IT Training Resources that we have recently discovered and researched. My hope is that these free resources help you with your computer education and training and are tools to advance your IT career. Our main mission is the training of those less fortunate who are seeking to become computer literate, both technically and from a user's perspective.

If you have any suggestions, ideas, or feedback about this newsletter, feel free to email us at mailto:[scott\\_turton@intelinfo.com](mailto:scott_turton@intelinfo.com). We appreciate your feedback. Also, please send this to your friends and colleagues, if you think they would like it. It contains highly valuable information for anyone who is an IT professional or desiring to become one.

In this issue we describe and link to a total of 65 computer, IT and programming learning and tutorial web sites. By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do.

Have a safe and joyous holiday season.

Best of luck with your computer studies and learning.

Warm Regards,  
Scott Turton  
Newsletter Editor and Webmaster

\*\*\*\*\*

Legato SAN Academy:

<http://www.sanacademy.com/>

A series of free, on-line courses that explore the fundamentals and the technical aspects of storage area network (SAN) technology. 4 free online courses in all.

\*\*\*\*\*

ITWorld.com Webcasts:

<http://www.itworld.com/Webcasts/>

Free educational and informative webcasts from vendors such as IBM, Microsoft, Sprint, Storability and Compaq.

\*\*\*\*\*

Mercury Interactive Cyber Seminars:

Receive  
copy:

If you would like a **Free Copy** of our current IT Education & Training Newsletter without subscribing:

[Make us your homepage! \(IE only\)](#)

[http://www-svca.mercuryinteractive.com/company/events/cyber\\_seminars/](http://www-svca.mercuryinteractive.com/company/events/cyber_seminars/)

You can attend Mercury Interactive's Free Web-based seminars - these are live, one-hour presentations on enterprise testing, performance management and customer case studies. Also view past testing and application performance management Cyber Seminar presentations. And check out their free Virtual User Conferences at

<http://www-svca.mercuryinteractive.com/company/events/wuc/>.

\*\*\*\*\*

WorldWideLearn.com Free Sample Courses:

[http://training.worldwidelearn.com/sample\\_courses](http://training.worldwidelearn.com/sample_courses)

WorldWideLearn.com offers over 300 professionally developed online training courses delivered directly to your browser. Here are their free sample courses, each containing four chapters from the full course, for you to try.

\*\*\*\*\*

ComputerPrep to Go Course Demonstration:

<http://www.computerprep.com/techBased/demo/mainmenu.htm>

Try out these free multimedia demo courses in these areas: A+ Certification, Java 2, Cisco CCNA, C Programming, Relational Database, Windows 2000 Professional and some MS Office modules. Narration clearly introduces the topic of each screen. (Shockwave v.8 is recommended)

\*\*\*\*\*

Ask the Security Experts:

<http://www.itsecurity.com/asktecs/asktecs.htm>

This IT security site has a new security clinic. If you have a security question, post it on the site and it will be forwarded to a group of 100 experts from leading IT security consultancies around the world.

\*\*\*\*\*

PC Resource Guide:

<http://www.mpl1.com>

This site offers free tech support on all PC and Windows matters. They state on the site: "Simply Free, Easy-to-understand, Computer Support."

\*\*\*\*\*

White Paper Library:

<http://whitepaperlibrary.m-commerceworld.com/>

Up to date information from a variety of leading vendors and analysts. Search or browse to locate the whitepapers and reports that will help you understand the latest trends and technologies. Broadly covers eBusiness, Streaming Media Services, ISP, and m-Commerce.

\*\*\*\*\*

White Paper Library in Information Technology:

<http://www.tradespeak.com/it.asp>

Free White Papers from many vendors, free registration required. Areas covered are Enterprise Solutions, Application Enabling Technologies, Networking and Telecom, Computing Hardware, and Open Source

\*\*\*\*\*

Hypermedia Image Processing Reference (HIPR):

<http://www.dai.ed.ac.uk/HIPR2/>

This is an image processing learning resources site providing a set of computer-based tutorial materials for use in taught courses on image processing and machine vision. Contains on-line reference and tutorial information on a wide range of image processing operations with extensively illustrated actual digitized images.

\*\*\*\*\*

Ecademy Free Downloads:

<http://www.theacademy.com/free.shtml>

Free membership is available from Ecademy.com where you learn, network, and develop your E-business. Many Reports, White Papers and Case Studies are available. As a thank you for joining they will give you a free downloadable copy of the the book The Battle of the Portals.

\*\*\*\*\*

The Windows Registry Guide:

<http://registry.winguides.com/>

This site, formerly Regedit.com, provides an extensive range of registry tweaks, tricks & hacks for optimizing, enhancing and securing the Windows operating system.

\*\*\*\*\*

Introducing Microsoft Windows XP:

[http://education.itresourcecenter.hp.com/Trainer/Education/Seminar/Sem\\_Detail.asp?comm=10&prod=8221](http://education.itresourcecenter.hp.com/Trainer/Education/Seminar/Sem_Detail.asp?comm=10&prod=8221)

This 1 hour online instructor-led seminar presents the Windows XP main features (professional and home edition) and walks you through Microsoft's Windows operating system history and future roadmap such as Windows .NET Server.

---

### **3) New Free I.T. Books, Publications & Book Sites:**

Some of these web resources will be added to our Free IT Books page at [http://www.intelinfo.com/free\\_computer\\_books.html](http://www.intelinfo.com/free_computer_books.html) and some will be added to our members site.

Read Free eBooks:

<http://www.realtimepublishers.com/>

The following ebooks are free to access and read once you register:

The Definitive Guide to Citrix MetaFrame XP:

<http://www.metaframebook.com/index.asp?ac=rtp>

The Definitive Guide to Windows 2000 Terminal Services:

<http://www.newmoon.com/ebook/>

The Definitive Guide to Windows 2000 Storage Resource Management:

<http://www.wquinn.com/ebook/>

The Definitive Guide to Windows 2000 Windows 2000 Security:

<http://www.bindview.com/ebook/>

The Definitive Guide to Windows 2000 and Exchange 2000 Migration:

<http://www.netiq.com/ebook/>

The Definitive Guide to Active Directory Troubleshooting:

<http://www.netpro.com/ebook/>

The Definitive Guide to Windows 2000 Group Policy:

<http://www.fullarmor.com/ebook/read/>

The Definitive Guide to Windows 2000 Administration:

<http://www.fastlane.com/windows2000admin/>

Tips and Tricks Guide to Windows 2000 & Active Directory Administration:

<http://www.aelita.com/ebook/>

\*\*\*\*\*

Linux Infobase:

<http://infobase.informit.com/infobase/content/0743100026/index.html>

Free Online Linux and Unix Books, including Unix Hints and Hacks, Linux: A Network Solution for Your Office, Sam's Teach Yourself Shell Programming, TCP/IP, and Samba in 24 Hours.

\*\*\*\*\*

Online Papers and Documentation:

<http://www.docs.cs.huji.ac.il/>

Lots of guides, documentation, etc. covering Java, HTML, DHTML, Javascript, Oracle, PHP, Unix, C/C++ and Networking.

\*\*\*\*\*

Handbook of Information Security Management:

<http://www.cccure.org/Documents/HISM/ewtoc.html>

This book is an important reference used by candidates preparing to take the exam for the Certified Information System Security Professional (CISSP).

=====  
=====

#### **4) University Computer Science Course Sites Free to Browse and Study:**

These web sites will be added to our Free University IT Course Webs page at  
<http://www.intelinfo.com/cat3.html>

CS117 Introduction to Computer Programming (C++):

<http://www.classes.cs.uchicago.edu/classes/archive/2001/spring/CS117/>

This course is about data structures and programming, based on C++.

\*\*\*\*\*

Object Oriented Programming:

<http://www.csd.uu.se/kurs/oop/ht98/>

This object oriented programming (OOP) course introduces the OOP paradigm and the related concepts in software engineering. Excellent lecture notes here: <http://www.csd.uu.se/kurs/oop/ht98/Lectures/>

\*\*\*\*\*

Introduction to Programming with C++:  
<http://hobbes.jct.ac.il/~naiman/c++-intro/>

This is the Online Course/Slides page from this course.

\*\*\*\*\*

Object Oriented Programming and Design with C++:  
<http://hobbes.jct.ac.il/~naiman/c++-oop/>

This is the Online Course/Slides page from this course. Here are all the C++ course sites for this instructor:  
[http://hobbes.jct.ac.il/~naiman/index.html#online\\_courses](http://hobbes.jct.ac.il/~naiman/index.html#online_courses)

\*\*\*\*\*

32521 Internetworking:  
<http://www-staff.it.uts.edu.au/~sean/HTML.dir/Iwork.html>

Free notes available for multi-protocol LAN design, IP and IPX addressing strategy, elements of WAN design, allowing LAN access to a WAN, and introduction of simple access control security to the network.

\*\*\*\*\*

CSC 343 Sections 701 & 801: Introduction to Operating Systems:  
<http://condor.depaul.edu/~dmumaugh/old-classes/csc343-701.tgz> (4.1 mb)  
<http://condor.depaul.edu/~dmumaugh/old-classes/csc343-801.tgz> (2.4 mb)

This course is an introduction to operating system technology. It focuses on the following subset of a complete operating system: Operating system architectures, Operating system structures, Process and thread management (with an emphasis on scheduling), Memory management, File system structures. Be sure to check out Transparencies from the Text and Documents and Readings for the course.

\*\*\*\*\*

<http://condor.depaul.edu/~dmumaugh/old-classes/csc416-205.tgz> (2.3 mb)  
<http://condor.depaul.edu/~dmumaugh/old-classes/csc416-304.tgz> (2.9 mb)

CSC 416 Sections 205 & 304: Foundations of Computer Science II - This course covers a range of data structures, related algorithms, and their implementation in C++. Topics covered include: the string class, linked lists, stacks, queues, recursion, binary trees, tree traversal techniques, maps, heaps, heapsort, graphs, inheritance, virtual functions, and abstract classes. We will also introduce C++ Standard Template Library (STL).

=====

**5) The Best Suggested Sites from our Website Users** - Every month we feature the best suggested IT training and tutorial sites from our website visitors. Here are this month's sites:

My CIW Web Site:

<http://www.myciw.ws/ciw/ciw.shtml>

Free CIW certification study and preparation site offering CIW practice questions, cram sessions, help and advice.

\*\*\*\*\*

Packet Attack:

<http://www.packetattack.com>

A quick reference to useful and frequently requested information available for network engineers and Cisco certification.

\*\*\*\*\*

HTML Guide Book By H.K. Shahid

[http://www.geocities.com/hk\\_shahid](http://www.geocities.com/hk_shahid)

A complete guide book for HTML beginners in seven chapters.

\*\*\*\*\*

Globalctt.com:

<http://www.globalctt.com>

A relatively new site offering many free technical training courses (still under construction).

\*\*\*\*\*

TheComputerScholar.Com:

<http://www.monolithonline.com/thecomputerscholar/>

This site has 20 free computer hardware tutorials.

\*\*\*\*\*

Free Courses from itile e learn:

<http://www.itilelearn.com/freecourses.htm>

Free online courses in Illustrator, DHTML and Photoshop.

=====  
=====

## **6) New Computer & IT Training & Tutorial Link & Resource Sites:**

These web sites will be added to our IT Links and Resources page at <http://www.intelinfo.com/cat6.html>

Programming Tutorials at find.com.au:

<http://www.find.com.au/tutorials/programming/>

These are the most visited tutorials in the Programming category. They also have other computer and IT tutorials.

\*\*\*\*\*

Spyorg.com - Computers:

<http://www.spyorg.com/Computers/>

Lots of links to computer related sites in many areas.

\*\*\*\*\*

These pages by David J. Hark have very extensive web resource links:

Web Site Design and Layout:

<http://www.ohurley.com/wsd/wsd.html>

Designing and Building an Intranet:

<http://www.dhark.com/intranet.html>

Graphic Design for the Web:

=====  
=====

## 9) Frequently Asked Questions about Technical Training:

Each month Scott Turton will answer one of the frequently asked questions we receive about computer and technical training and career development.

December 2001 FAQ:

What certifications the most popular certifications and which ones I need?

Answer:

The following gives you an overall view of the most popular IT certifications. This will give you an idea of

what is available. For website links on these and many other certifications that are available to you, please check out this page on our web site: <http://www.intelinfo.com/itcerts.html>. It is also a very good idea to continue learning and studying while you are employed. This will keep you current with the latest technology, advance your career in more promising directions, and help you earn another IT certification.

Certifications with their levels and descriptions:

A+ (Entry) - This is a 'vendor neutral' certification that focuses on basic computer knowledge, specifically hardware and operating systems. It is commonly earned as your first certification, then later you can study and obtain other certifications.

LPI Program (Entry & Intermediate) - This is the Linux Professional Institute's certification track for Linux. There are three levels demonstrating your increasing knowledge of the Linux Operating System.

MCP (Entry) - The Microsoft Certified Professional certification indicates that you have the skill to implement and maintain Microsoft specific business solutions. You can also add additional certifications for Internet and Site Building.

MCSE (Entry & Intermediate) - The Microsoft Certified Systems Engineer is a common certification that provides overall coverage of networks as well as Microsoft-specific technology, such as Windows 2000.

CNA (Entry) - The Novell Certified Network Administrator certification demonstrates your ability to provide support on Novell network products.

CNE (Entry & Intermediate) - The Novell Certified Network Engineer is also a common certification that provides overall coverage of network technology as well as Novell-specific knowledge.

ICSA (Intermediate & Advanced) - ICSA.net Certified Network Security Administrator is a certification for taking existing network knowledge into the area of network security.

OCP (Entry, Intermediate, and Advanced) - The Oracle Certified Professional certification enables you to work with Oracle Database products and there are many subspecialties to this certification. This certification could support a networking oriented career or a track in web back-end technology.

Cisco (Entry, Intermediate & Advanced) - Cisco has a number of certification programs that focus on their wide variety of network products.

Java (Entry & Intermediate) - Sun Microsystems provides a certification to verify proficiency at Sun JAVA programming.

I hope this helps you.

Scott Turton
