1) Editor's Greeting:

Hello, everyone! I would like to personally thank all of you for your support of our newsletter and website during the past year. This is the 17th issue of our free monthly email newsletter for Computer Education, Training, & Tutorial Resources, giving you the latest Free Internet IT Training Resources that we have recently discovered and researched. My hope is that these free resources help you with your computer education and training and are tools to advance your IT career. Our main mission is the training of those less fortunate who are seeking to become computer literate, both technically and from a user's perspective.

If you have any suggestions, ideas, or feedback about this newsletter, feel free to email us at mailto:scott_turton@intelinfo.com. We appreciate your feedback. Also, please send this to your friends and colleagues. It contains highly valuable information for anyone who is an IT professional or desiring to become one.

In this issue we describe and link to a total of 56 computer, IT and programming learning and tutorial web sites. By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do.

*** Current News ***

I'd like to explain a few items about our member site. The current fee to access our members' site is \$10.00 for 6 months (this may increase in the future). Over half of the web sites in our members site are not in the free section of our web site. The online training resources in our members' site are linked and laid out in a much more detailed fashion. This will save you time in finding all the best free training on the web. When your membership period expires, you will be asked if you want to renew your membership, you will not be automatically charged another fee on your credit card or check. You can also use PayPal to sign-up as a member of Intelinfo.com, just use this link: http://www.intelinfo.com/links/become_a_member.html. If you register to pay \$10.00 via PayPal using this method, simply tell us in the 'Special Instructions' what you want for your user name and password.

Best of luck with your computer studies and learning.

Warm Regards,
Scott Turton
Newsletter Editor and Webmaster
scott_turton@intelinfo.com<http://www.intelinfo.com/>

3) New Free I.T. Books, Publications & Book Sites:

Some of these web resources will be added to our Free IT Books page at http://www.intelinfo.com/free_computer_books.html and some will be added to our members site.

Factoring JavaBeans in The Enterprise:
<http://publib-b.boulder.ibm.com/Redbooks.nsf/RedbookAbstracts/sg245051.html>

This book is about assembling JavaBeans, concentrating on how to find, connect, customize, and deploy JavaBeans in an enterprise environment.

Inside AppleTalk, 2nd Edition:
http://developer.apple.com/macos/opentransport/docs/dev/Inside_AppleTalk.pdf

AppleTalk is a set of local area network communication protocols originally created for Apple computers.

Hacker Crackdown:
<http://www.farcaster.com/sterling/contents.htm>

Law and Disorder on the Electronic Frontier: Hackers, Computer Revolution Heroes, by Steven Levy

Web Performance Tuning - 9 free chapters:
<http://patrick.net/wpt/index.html>

This book concentrates on practical advice much more than on theory, giving advice on the configuration and application-level programming of commodity components.

Up to Speed with Swing CyberDigest:
<http://www.manning.com/Gutz2/digest.pdf>

Selected portions of Up to Speed with Swing have been included in a free CyberDigest.

Free Book Chapters from webreference.com:

4 Free Chapters from The JavaScript Sourcebook:

<http://www.webreference.com/content/jssource/>

2 Free Chapters from Web Site Administrator's Survival Guide:

<http://www.webreference.com/content/website/>

2 Free Chapters from Practical JavaScript Programming:

<http://www.webreference.com/content/jspro/>

Computational Science Education Project (CSEP):

<http://csep1.phy.ornl.gov/csep.html>

This book is an introduction to High Performance Computing issues as a preparation for research and studies in computational science and engineering. The intended audience are students at the advanced undergraduate level and higher. Tutorials for freely available networking and visualization software are included and have attracted a range of users, including high-school students and people from the commercial sector.

4) University Computer Science Course Sites

Free to Browse and Study:

These web sites will be added to our Free University IT Course Webs page at

<http://www.intelinfo.com/cat3.html>

CSC 314 Programming in Java:

<http://www.depaul.edu/~jjungman/CSC314/homepage.html>

Good Java Lecture Notes are available on this site. Here is another section of the class:

<http://facweb.cs.depaul.edu/jhill/314/>

SE 450 Object-Oriented Software Development

<http://www.depaul.edu/~mgehard/se450/se450home.html>

This course teaches the fundamentals of object-oriented programming using Java. Topics to be covered include: Java applets and web pages, Java classes and interfaces, Data types and control flows, Java Abstract Window Toolkit (AWT), Java Foundation Classes (JFC) and Swing, Java threading, Networking with Java, Object oriented design, Introduction to design patterns and frameworks.

These online classes have great lecture notes and slides available for free. Here are just 2 of them:

CS1206: Operating System Tools II:

<http://courses.cs.vt.edu/~cs1206/>

CS2984: Java:

<http://courses.cs.vt.edu/~java/>

Two IT Learning Sites by Professor Matloff:

Java Beginner's Web Page:

<http://heather.cs.ucdavis.edu/~matloff/java.html>

Unix Tutorial Center:

<http://heather.cs.ucdavis.edu/~matloff/unix.html>

Software Engineering Course Lectures Notes:

<http://se.uwaterloo.ca/~dberry/COURSES/software.egr/>

Here are some good lecture notes from this software engineering class. Included are these:

Software Project Management:

<http://se.uwaterloo.ca/~dberry/COURSES/software.egr/lectures.pdf/projman.pdf>

O-O Windowing Decomposition:

<http://se.uwaterloo.ca/~dberry/COURSES/software.egr/lectures.pdf/windec.com.pdf>

Debugging and Testing:

<http://se.uwaterloo.ca/~dberry/COURSES/software.egr/lectures.pdf/testing.pdf>

CPSC 451 Practical Software Engineering

<http://sern.ucalgary.ca/courses/CPSC/451/W01/cpsc451.html#schedule>

Learn about software engineering from these online study notes.

=====

5) The Best Suggested Sites from our Website Users - Every month we feature the best suggested IT training and tutorial sites from our website visitors. Here are this month's sites:

Apex Web Media Computer Training Software:

<http://www.computer-training-software.com/demo.htm>

Receive the first segments of their training CDs over the internet for free. These cover applications such as Photoshop and Flash, Dreamweaver, and also C++ and Visual Basic.

Software Dioxide.com:

<http://www.softwaredioxide.com/>

A portal that helps Software Engineering and Management Professionals build software cheaper, better and faster. It provides professionals in Software Engineering domain with the useful resources, white papers, papers & tech reports, best practices.

6) New Computer & IT Training & Tutorial Link & Resource Sites:

These web sites will be added to our IT Links and Resources page at <http://www.intelinfo.com/cat6.html>

XML.com Resource Guide:
<http://www.xml.com/resourceguide/>

Helps you find valuable information on XML all across the Web.

Free Tutorials:
<http://www.knowledgeisland.com/tutorials.php>

Free Computer Tutorials Section at KnowledgeIsland.com.

Mathtools.net > Learning > Books and Tutorials:
http://www.mathtools.net/Learning/Books_and_Tutorials/index.html

These web resources cover Visual Basic, C/C++, Fortran, Java and Excel.

<http://www.universalthread.com/>

Click on 'Articles' link in left column - this site links to many tutorials and articles.

7) New Desktop and Office Application Training Sites:

These web sites will be added to of Free Office and Desktop Training page at <http://www.intelinfo.com/office.html> . Also, check out our expanded MS Office 2000 Free Training page here: http://www.intelinfo.com/office_2000.html

=====

8) I.T. Sites Worth Mentioning:

The "Belarc Advisor":

<http://www.belarc.com/Download.html>

A useful and free online tool that builds a detailed profile of your installed software and hardware. It creates a local web page on your PC containing a rundown of all the hardware in and attached to your system, plus information on all the installed software including license and version numbers. This is definitely worth a look.

CompletePlanet - Directory Computing & Internet:

http://www.completeplanet.com/Computing_Internet/index.asp

Discover and search 90,000 searchable databases and specialty search engines.

9) Frequently Asked Questions about Technical Training:

Each month Scott Turton will answer one of the frequently asked questions we receive about computer and technical training and career development.

January 2002 FAQ:

How important is Hands-on training?

Answer:

With online training (whether free or paid) you can still get hands on experience by practicing what you are being taught, as long as you have the applications and software tools you installed on the computer you're using. However, sometimes it is difficult even when you have the tools - there are times when you really need someone to look over your shoulder and actually guide you. The next best thing would be to have the tools or application on your PC and then ask a teacher or mentor online who hopefully will be able to tell you what to do, etc. When you don't have anyone to ask, that is when it is really difficult to truly learn what you need to. This is the reason we started several months ago to expand the listing of our online help, support and forum sites. This newsletter always has a least 2 listed and you can check them all out on this page: <<http://www.intelinfo.com/cat2-3.html#tektips>>. If you cannot afford to purchase the software you need, sometimes a similar application is available for free. For example, Microsoft Office is very expensive - but you can download Sun's Star Office for free <<http://www.sun.com/software/star/staroffice/>>, it has most of the same functionality. I hope this helps you.

*** **Intelinfo.com's Member Site** ***

<http://www.intelinfo.com/sign-up/index.html>

Our new Members' Site contains the web's best computer and IT training resources and tutorials. This content is individually linked and presented in a way to expedite and facilitate your IT learning experience. We have done all the web research and presentation work for you so you can concentrate solely on your computer training.

Intelinfo.com Member Site FAQ:

1. Over half of the web sites and pages in our members site are not in the free section of our web site. The online training resources in our members' site are linked and laid out in a much more detailed fashion than those in the free section. This will save you time in finding all the best free training on the web.
2. If you use a credit card when joining, it will be billed by Verotel. When your membership period expires, you will be asked if you want to renew your membership, you will not be automatically charged another fee on your credit card or check.
3. You can also use PayPal to sign-up as a member of Intelinfo.com. Just use this link <http://www.intelinfo.com/links/become_a_member.html> or go to near the bottom of the sign-up page and click on the PayPal Donate button. If you register to pay \$10.00 via PayPal using this method, simply tell us in the 'Special Instructions' what you want for your user name and password.

The total price to join our member's site is only \$10 total for 2 months. The funds

generated will assist us to help all those seeking IT education and application development training. Here's the link to see what's available on our member's site and to sign up:
