### **1) Editor's Greeting:**

Hello, everyone! This is the 19th issue of our free monthly email newsletter for Computer Education, Training, & Tutorial Resources, giving you the latest Free Internet IT Training Resources that we have recently discovered and researched. My hope is that these free resources help you with your computer education and training and are tools to advance your IT career. Our main mission is the training of those less fortunate who are seeking to become computer literate, both technically and from a user's perspective.

If you have any suggestions, ideas, or feedback about this newsletter, feel free to email us at [mailto:scott\\_turton@intelinfo.com](mailto:scott_turton@intelinfo.com). We appreciate your feedback. Also, please send this to your friends and colleagues. It contains highly valuable information for anyone who is an IT professional or desiring to become one.

In this issue we describe and link to a total of 62 computer, IT and programming learning and tutorial web sites. By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do.

\*\*\* Current News \*\*\*

We have added new pages and content to our site.  
Here is a rundown:

## 9) Frequently Asked Questions about Technical Training:

Each month Scott Turton will answer one of the frequently asked questions we receive about computer and IT training and career development.

March 2002 FAQ:

Is there any place on the web where I can locate or access sites that were once available but are no longer online?

Answer:

Yes, there is! A new web site called the Internet Archive at <http://www.archive.org/> has made an historical archive of the web over the past several years. They call their service the WayBack Machine. You can freely access many web sites that are no longer available. Of course, these sites are frozen in time and may become outdated. As I have scanned intelinfo.com for bad links this past month, I have looked up each of these in the Internet Archive and found that almost half of these dead sites are there, with all or most of their content. I've updated these links on the site with the archived link. Please note that access to the archive is granted for scholarship and research purposes only.

I hope this helps you.
