**1) Editor's Greeting:**

Hello everyone, and welcome to our new subscribers!

I hope everyone had a great New Year holiday. This 29th issue of our free semimonthly email newsletter for Computer IT Education, Training, & Tutorial Resources provides you with the latest Free online IT Training Resources that we have recently discovered and researched. This newsletter is free to anyone subscribing (instructions at bottom, no username/password is needed). To access our member site, however, you do need a user name and password - registering as a member of Intelinfo.com costs \$10 for two months, for more information please see below 'Become a Member of Intelinfo.com'.

My desire is that these free resources will help you with your computer education and training and are tools to advance your IT career. Our main mission is the training of those less fortunate who are seeking to become computer literate, both technically and from a user's perspective.

In this issue we describe and link to a total of 35 computer, IT and programming learning and tutorial web sites. By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do. This newsletter is also available to subscribers in HTML format at this special url: [http://www.intelinfo.com/current\\_news.html](http://www.intelinfo.com/current_news.html)

**\*\*\* Current News \*\*\***

I receive many great comments and positive feedback about this newsletter. Some of you have said you love the sites I give you, but sometimes there are too many. So, to reduce the size and make it more manageable, this newsletter will now be issued twice a month (semimonthly) starting this month in January, 2003.

We will be launching a new member site for Microsoft Office and other desktop productivity applications in the near future. This new site will provide you with the best free online training and tutorials available for these apps. More information will follow soon.

I'd like to personally wish you the best with your computer studies and learning.

Warm Regards,  
Scott Turton  
Newsletter Editor and Webmaster

Basic Course In Special Effects and Game Development In Java:  
<http://www.mandomartis.com/onlinecourses/courses.html>

The first course being offered here is their course teaching you special effects and game programming in the form of Java applets. For every special effect applet, the author reviews how to implement it as a plugin for the Visual Applet Configurator. This course covers the development of simple applet games and net games with net game servers. It also teaches application development, client-server systems and Java's graphics engine, but on a smaller scale.

\*\*\*\*\*

C++ Language Tutorial:  
<http://www.omg.unb.ca/~jzhang/cpp/cplist.html>

This tutorial teaches the C++ programming language but assumes that the student has already attained a reasonable proficiency in C programming. It is composed of 12 chapters which should be studied in order since topics are introduced in a logical order and build upon topics introduced in previous chapters.

\*\*\*\*\*

C Tutorial:  
<http://www.eecs.wsu.edu/ctutorial.html>

## 9) Frequently Asked Questions about Technical Training:

Each month Scott Turton will answer one of the frequently asked questions we receive about computer and IT training and career development.

January 2003 FAQ: Do you know of any free Java courses with teachers and student interacting and providing feedback.

Answer:

Yes! Here are the details about a New Free J2EE Training Course. Sang Shin, Sun Microsystems, and Sameer Tyagiare teaching a free class on J2EE Programming. The course material is provided online, and an online study group (via yahoo groups) has formed. There is alot of excitement in the community about this class. Yes, it's already started - but only recently. It continues through early March - you will study and learn about:

- Web Application Architecture
- Servlets / JSP
- Security
- EJB
- JMS
- and more

The Yahoo group home page for this course is here:

Our Members' Site contains the web's best computer and IT training resources and tutorials. This content is individually linked and presented in a way to expedite and facilitate your IT learning experience. We have done all the web research and presentation work for you so you can concentrate solely on your computer training.

Intelinfo.com Member Site FAQ Answers:

1. Over half of the web sites and pages in our members site are not in the free section of our web site. The online training resources in our members' site are linked and laid out in a much more detailed fashion than those in the free section. This will save you time in finding all the best free training on the web.

2. If you use a credit card when joining, it will be billed by Verotel. When your membership period expires, you will be asked if you want to renew your membership, you will not be automatically charged another fee on your credit card or check.

3. You can also use PayPal to sign-up as a member of Intelinfo.com, just use this link: <[http://www.intelinfo.com/links/become\\_a\\_member.html](http://www.intelinfo.com/links/become_a_member.html)>. If you register to pay \$10.00 (for 2 months access) via PayPal using this method, simply tell us in the 'Special Instructions' what you want for your user name and password.

4. If your country is not listed in the drop-down list, please use 2checkout.com to register as an intelinfo.com site member using this link: <[http://www.intelinfo.com/links/intelinfo\\_member.html](http://www.intelinfo.com/links/intelinfo_member.html)>. I will then send you an email asking what you would like to use for your user name and password.

The total price to join our member's site is only \$10 total for 2 months, \$18.50 for 4 months, or \$25.50 for 6 months. The funds generated will assist us to help all those seeking IT education and application development training. Here's the link to see what's available on our member's site and to sign up:
