1) Editor's Greeting:

Hello everyone, and welcome to our new subscribers!

This is the 1st edition of our March 2003 issue of our free semi-monthly newsletter for Computer IT Education, Training, & Tutorial Resources providing you with the latest Free online IT Training Resources that we have recently discovered and researched. This newsletter is free to anyone subscribing (instructions at bottom, no username/password is needed). To access our member site, however, you do need a user name and password - registering as a member of Intelinfo.com costs \$10 for two months, for more information please see below 'Become a Member of Intelinfo.com'.

My desire is that these free resources will help you with your computer education and training and are tools to advance your IT career. Our main mission is the training of those less fortunate who are seeking to become computer literate, both technically and from a user's perspective.

In this issue we describe and link to a total of 32 computer, IT and programming learning and tutorial web sites. By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do. For your convenience, this newsletter is also available to subscribers in HTML format at this special url: http://www.intelinfo.com/current_news-2.html

***** Current News *****

Our new software application and office training and tutorial site, **EducationOnlineForComputers.com**, is now up and running. We give you Free access to hundreds of Free Training and Tutorials covering Microsoft Office, Flash, Photoshop, Dreamweaver and FrontPage. We also provide you a member site for the best available online software application training. **Here is the url:** <http://www.educationonlineforcomputers.com>

The "New Desktop and Office Application Training Sites" section of this newsletter has been discontinued because EducationOnlineForComputers.com has its own newsletter giving you this type of software and end-user training. You can sign up for this new newsletter here: http://www.educationonlineforcomputers.com/optin_newsletter.html

I wish you the best with your computer studies and learning.

Warm Regards,

"THE SYSTEM INTERNET BUSINESS TRAINING"
<http://tinyurl.com/7je5>

"I attended this System Internet Business Training Seminar last year and it has helped me tremendously. They have now opened up registration to the public for a limited time." - Scott Turton

Who else wants a proven "System" that turns raw ideas into solid businesses and solid businesses into raging cash machines in days and weeks instead of years?

Don't delay because 67 industry insiders have already snatched up precious seats on word-of-mouth alone.

"System" students have made major financial breakthroughs, not in years, but within months - sometimes just days - after graduating. Now, in 2003, for the first time ever, the "System" is being made available to the general public after years of secrecy. <http://tinyurl.com/7je5>

Please Visit One of Our Sponsors and request more information - doing this enables us to bring you these great free computer and IT training resources every month:

Free tutorials for C++, Visual Basic, J++, Delphi, Pascal, Access, FrontPage, Dreamweaver, Word, Excel, PowerPoint, Linux, and Windows 2000

C++ Tutorial:

<http://www.tutorialbox.com/tutors/c++/C++tutor.htm>

Pascal Language Tutorial:

<http://www.tutorialbox.com/tutors/pascal/paslist.html>

Delphi & Pascal Programming Tutorials:

<http://www.tutorialbox.com/tutors/delphi/Tut.htm>

Linux Tutorial:

<http://www.tutorialbox.com/tutors/linux/LINUX.HTML>

Unix Tutorial:

<http://www.tutorialbox.com/tutors/unix/default.htm>

Windows 2000 Tutorial:

<http://www.tutorialbox.com/tutors/win2000.pdf>

Information Technology Fundamentals:

<http://elearning.asu.edu/itf/>

Offers several instructional modules free for public use. Click on the "go to the Independent Student's Welcome Page" link. Courses cover Storage Media and Devices, Peripheral Devices, Electricity and Safety, Hard Drives, Expansion Cards, Motherboards, Networking I, Networking II, and Number Systems

ProfSR.com Tutorials:

<http://www.profsr.com/>

Tutorials covering Visual Basic, Access, Database Design and SQL, HTML, Web Design, Unix and Telnet, with these coming: Object-oriented analysis and design with UML, Visual Basic 6 to VB .NET conversion, and XML Primer. (free registration required)

C Tutorials:

<http://cplus.about.com/cs/ctutorials/index.htm>

C++ Tutorials:

<http://cplus.about.com/cs/ctutorial1/index.htm>

I'm usually not very keen about the about.com pages, but these C/C++ tutorials are pretty good showing you how to code with several techniques to use.

Introduction to Perl Tutorial:

<http://vsbabu.org/tutorials/perl/>

<http://vsbabu.org/zips/perltut.zip> (26kb)

Introduction to PHP3 Tutorial:

<http://vsbabu.org/tutorials/php/>

<http://vsbabu.org/zips/phptut.zip> (21kb)

Review online or download these Perl and PHP3 tutorials. They will show you how to get started coding in these popular scripting programming languages. Also, here is another PHP learning page that provides advanced resources:

<http://www.sitepointforums.com/showthread.php?threadid=78687>

LinuxGuruz Main Page:

<http://www.linuxguruz.org/>

Many Links and Tutorials, Articles and FAQ about Linux, Netfilter IPTABLES, Apache Web Server, HTML, PHP, MySQL, PostgreSQL, CGI, Perl, Java, C++, Bash, Networking, Security, InterNet Service Providers, IRC, Xwindows, Laptops, Graphics, Hardware.

Index of Documentation for People Interested in Writing and/or Understanding the Linux Kernel: <http://jungla.dit.upm.es/~jmseyas/linux/kernel/hackers-docs.html>

Reading Linux source code is not always enough. It is easy to understand the code, but miss the concepts, the philosophy and design decisions behind this code.

Study Guide for The Java 2 Web Component Developer Certification:

<http://home.earthlink.net/~alxdark/software/wcd-guide/index.html>

This study guide prepares the reader to take Sun Microsystem's Java 2 Web Component Developer Exam. It also provides a review of Java servlet and JSP technologies for developers working with these technologies.

PCCTI Practice Tests Online:

<http://www.pcctitest.com/home.asp>

All of their certification practice tests are Free for a limited time. (free registration required)

WebSphere Studio V5 Tutorial Demo Handbook:

<http://tinyurl.com/7jfl>

For an enjoyable yet highly technical tour of WebSphere Studio Application

Developer, check out these self-running audio-video demos. More than 30 brief demos take you through EJB and Web services development, debugging, data access, taglibs, and much more. No special software required.

Presentation Materials from ITSO Technical Forum in Belgium:

<http://tinyurl.com/7jvu>

IBM organized a ITSO Technical Forum in Belgium last September. There are some good presentations here. Click on "Read More" to get the links to all of the 33 presentations.

JOT: Journal of Object Technology:

http://www.jot.fm/current_issue_redirect

Current articles covering object-oriented, object technology, object oriented, component, component based development, design patterns, object, class, inheritance, objects, classes. Here are the archives: <http://www.jot.fm/issues>

Visual Basic and XML Tutorials:

<http://www.thescarms.com/vbasic/VBArticles.asp>

Tutorials on this site include the following:

Object Oriented Programming and VB.NET:

<http://www.thescarms.com/vbasic/ObjectOriented.asp>

Upgrading from VB6 to VB.NET:

<http://www.thescarms.com/vbasic/VB6vsVBNet.asp>

An XML (Extensible Markup Language) Tutorial:

<http://www.thescarms.com/XML/XMLTutorial.asp>

A DTD (Document Type Definition) Tutorial:

<http://www.thescarms.com/XML/DTDTutorial.asp>

An XML Schema Tutorial:

<http://www.thescarms.com/XML/SchemaTutorial.asp>

A DOM (Document Object Model) Tutorial:

<http://www.thescarms.com/XML/DOMTutorial.asp>

A Practical Guide to Active Server Pages:

<http://www.manastungare.com/asp/default.asp>

This is an ASP Tutorial that the author wrote as supplementary material for a

workshop that he conducted.

3) New Free Computer IT Books, Publications & Book Sites:

Some of these web resources will be added to our Free IT Books page at http://www.intelinfo.com/free_computer_books.html and some will be added to our members site.

Free Online Books from InformIT.com:

These are the complete books, not just the short, beginning paragraphs from Safari.

High Performance Networking Unleashed:

Using Visual Basic 6:

<http://tinyurl.com/71a4>

Red Hat Linux Unleashed:

<http://tinyurl.com/71a9>

Aboutmarket.com:

<http://www.aboutemarket.com/ebook.html>

This site provides the following free ebooks:

Guide to Java Programming:

<http://aboutemarket.com/anonftp/pub/guidetojava.exe>

JavaBeans:

<http://aboutemarket.com/anonftp/pub/javabeans.exe>

Tricks of the Java Programming:

<http://aboutemarket.com/anonftp/pub/javatricks.exe>

Web Programming with Java:

<http://aboutemarket.com/anonftp/pub/webprojjava.exe>

Perl Quick Reference:

<http://aboutemarket.com/anonftp/pub/perlref.zip>

Perl 5 Unleashed:

<http://aboutemarket.com/anonftp/pub/perl5un.exe>

Teach Yourself CGI Programming with Perl 5:

<http://aboutemarket.com/anonftp/pub/cgipro.exe>

Creating Shockwave Web Pages:

<http://aboutemarket.com/anonftp/pub/shock.exe>

Web Programming Desktop Reference:

<http://aboutemarket.com/anonftp/pub/webng.exe>

Web Programming Unleashed:

<http://aboutemarket.com/anonftp/pub/webgr.exe>

Programming from Specifications:

<http://web.comlab.ox.ac.uk/oucl/publications/books/PfS/>

This book presents a rigorous treatment of most elementary program-development constructs, including iteration, recursion, procedures, parameters, modules and data refinement. (convert postscript .ps file to .pdf file here:

<http://www.ps2pdf.com/convert/convert.htm>)

Programming Languages:

<http://www.cs.jhu.edu/~scott/plbook/>

This book assumes familiarity with the basics of Caml, including the module system (but not the objects). Beyond that there is no absolute prerequisite, but knowledge of C, C++, and Java is helpful because many of the topics in this book are implemented in these languages.

4) University Computer Science Course Sites Free to Browse and Study:

These web sites will be added to our Free University IT Course Webs page at

<http://www.intelinfo.com/cat3.html>

Course Webcast Schedule:

<http://webcast.berkeley.edu/courses/>

Here are some of the online classes you are able to listen to and view via Webcasts:

IDS 110 Intro to Computers:

<http://webcast.berkeley.edu/courses/archive.html?prog=55&group=52>

CS 61A The Structure and Interpretation of Computer Programs:

<http://webcast.berkeley.edu/courses/archive.html?prog=40&group=52>

CS 162 Operating Systems and System Programming:

<http://webcast.berkeley.edu/courses/archive.html?prog=116&group=52>

CS 150 Components and Design Techniques for Digital Systems:

<http://webcast.berkeley.edu/courses/archive.html?prog=109&group=52>

CS 3 Introduction to Symbolic Programming (Scheme):

<http://webcast.berkeley.edu/courses/archive.html?prog=92&group=50>

Transaction Processing I:

<http://www.cba.uh.edu/%7Eeparks/disc3371.htm>

This course is the first part of a two course sequence on transaction processing in the client-server environment. This first course concentrates on client side processes involving entry, validation and submission of transaction information across the Internet. The primary technologies employed are: cgi, HTML, XML, Microsoft's VBScript, Javascript, Java applet basics and LINUX fundamentals.

Transaction Processing II:

<http://www.cba.uh.edu/%7Eeparks/disc4372.htm>

This second course concentrates on server-side processes involving submission and

processing transaction information across the Internet. The primary technologies employed are: HTML, XML, XSL, Microsoft's ASP.NET (VB.NET and C#), Microsoft SQL Server 2000 emphasizing XML. It will also examine the LINUX and PGP alternative.

Voice Networking Applications - Lecture notes:

<http://www.cs.nyu.edu/courses/spring02/G22.3033-011/schedule.htm>

5) The Best Suggested Sites from our Website Users -

Every month we feature the best suggested IT training and tutorial sites from our website visitors. Here are this month's sites:

Tips and Tricks Guide to Active Directory Troubleshooting:

www.netpro.com/ebook

The free e-book is written by industry expert author Don Jones and will follow a

reader-friendly Q&A format. Like all of our e-books, this one will be posted chapter by chapter as it is written in order to provide the most up-to-date information.

Loads of Linux Links:

<http://loll.sourceforge.net/linux/links/index.html>

The purpose of the Loads of Linux Links project is to collect, organise, classify and maintain important URLs about Linux and the Open Source movement for all levels of Linux users. The LoLL project now has 3000+ links which are updated regularly.

6) New Computer & IT Training & Tutorial Link & Resource Sites:

These web sites will be added to our IT Links and Resources page at

<http://www.intelinfo.com/cat6.html>

Software Development Outline:

<http://home.earthlink.net/~alxdark/software/outline/>

A great link and resource site for topics such as Analysis and Design, Clients, Java, Programming Languages, Meta Data, .Net, Operating Systems, Servers, Style Sheets, Tools, User Interface, Web Services and WWW.

Software-Engineering.org Articles:

http://software-engineer.org/article_index.php

Links to 457 Software Engineering Articles.

7) I.T. Sites Worth Mentioning:

DocMemory PC RAM Diagnostic Software:

<http://www.docmemory.com/PAGE/products/doc/docinfo.asp>

This is a free tool (for a limited time, registration required) to completely test and verify your CPU's memory. You can perform continuous tests and create a diskette to use on any other Windows based computer. (297KB)

Browser Hijack Blaster:

<http://www.wilderssecurity.com/bhblaster.html>

This is a free utility that will stop malicious configuration and hijacking of your browser by a web site or a nasty shareware program. This tool will let you know when something's trying to change your settings and pass control back to you. (394KB)

Start-Up Applications:

http://www.pacs-portal.co.uk/startup_pages/startup_full.htm

This web page tells you exactly what each program in your Windows startup folder is and what it does.

Refresh the Desktop without Restarting Windows:

<http://www.annoyances.org/exec/show/article06-031>

This online guide assists you in restoring your empty Windows desktop without rebooting.

Crying over spilled data:

<http://www.computeruser.com/articles/2202,5,36,1,0201,03.html>

A good article that explains what buffer overflows are and what they mean to you. This type of software defect is one the most common security issues today.

8) Frequently Asked Questions about Technical Training:

Each month Scott Turton will answer one of the frequently asked questions we receive about computer and IT training and career development.

March 2003 FAQ #2: Where can I find Free Microsoft Office, Flash and Photoshop tutorial training?

Answer:

For free end-user training, check out our new web site at

<http://www.educationonlineforcomputers.com/>

The "New Desktop and Office Application Training Sites" section of this newsletter has been discontinued because EducationOnlineForComputers.com has its own newsletter giving you this type of software and end-user training.

Computer Education, Training, & Tutorial Resources

<http://www.intelinfo.com/>

Free I.T. Training Now!

A free and member-based I.T. educational and training portal web site. We have compiled, categorized, described, and linked many, many sites that will be of keen interest to computer science students and instructors and others seeking free training and knowledge about computers. All areas are covered, from programming to systems administration to networking to the internet. You are able to study and learn all about computers and I.T. via Free training, courses, tutorials, books, guides, documentation, articles, tips, notes, and help. Also offered are free technical training tutorials co-branded with Beginners.uk.co. Check us out today.

Copyright Notice: Please note that all of the items hyperlinked are copyrighted by their authors and/or publishers. You are expected to look for, read, and adhere to such notices. Downloaded and online material is copyrighted whether or not a copyright notice is present.

***** Intelinfo.com's Member Site *****

<http://www.intelinfo.com/sign-up/index.html>

Our Members' Site contains the web's best computer and IT training resources and tutorials. This content is individually linked and presented in a way to expedite and facilitate your IT learning experience. We have done all the web research and presentation work for you so you can concentrate solely on your computer training.

Intelinfo.com Member Site FAQ Answers:

1. Over half of the web sites and pages in our members site are not in the free section of our web site. The online training resources in our members' site are linked and laid out in a much more detailed fashion than those in the free section. This will save you time in finding all the best free training on the web.
2. If you use a credit card when joining, it will be billed by Verotel. When your membership period expires, you will be asked if you want to renew your membership, you will not be automatically charged another fee on your credit card or check.
3. You can also use PayPal to sign-up as a member of Intelinfo.com, just use this link: <http://www.intelinfo.com/links/become_a_member.html>. If you register to pay \$10.00 (for 2 months access) via PayPal using this method, simply tell us in the 'Special Instructions' what you want for your user name and password.

4. If your country is not listed in the drop-down list, please use 2checkout.com to register as an intelinfo.com site member using this link: [<http://www.intelinfo.com/links/intelinfo_member.html>](http://www.intelinfo.com/links/intelinfo_member.html). I will then send you an email asking what you would like to use for your user name and password.
5. If you are looking for training and tutorials covering popular software such as Microsoft Office, Flash, Photoshop, Dreamweaver, Web Development, Windows and Computer Hardware, please see our sister site, <http://www.EducationOnlineForComputers.com>

The total price to join our member's site is only \$10 total for 2 months, \$18.50 for 4 months, or \$25.50 for 6 months. The funds generated will assist us to help all those seeking IT education and application development training. Here's the link to see what's available on our member's site and to sign up:

[<http://www.intelinfo.com/sign-up/index.html>](http://www.intelinfo.com/sign-up/index.html).

You can email Scott Turton with questions.

I will give you 8 great Free Bonuses when you sign up now. These are as follows:
