## 1) Editor's Greeting:

Hello everyone, and welcome to our new subscribers!

This is the 1st edition of our May 2003 issue of our free semi-monthly newsletter for Computer IT Education, Training, & Tutorial Resources providing you with the latest Free online IT Training Resources that we have recently discovered and researched. This newsletter is free to anyone subscribing (instructions at bottom, no username/password is needed). To access our member site, however, you do need a user name and password - registering as a member of Intelinfo.com costs \$10 for two months, for more information please see below 'Become a Member of Intelinfo.com'.

My desire is that these free resources will help you with your computer education and training and are tools to advance your IT career. Our main mission is the training of those less fortunate who are seeking to become computer literate, both technically and from a user's perspective.

In this issue we describe and link to a total of 37 computer, IT and programming learning and tutorial web sites. By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do. For your convenience, this newsletter will be available to you in HTML format at this special url on May 4:

[http://www.intelinfo.com/current\\_news.html](http://www.intelinfo.com/current_news.html)

### \*\*\*Current News \*\*\*

Are you looking for quality e-mail newsletters? **EzineXchange** is a brand new and exciting service that I believe is a step above the rest. And if you're a publisher it will help build your subscription list for free! Here it is: <http://tinyurl.com/ape6>. Also, if you're sitting in traffic when you would rather be home studying, our **Audio Study Guides** could be for you. Go here to check them out: <http://tinyurl.com/asn3>

I wish you the best with your computer studies and learning.

Warm Regards,  
Scott Turton  
Newsletter Editor and Webmaster

---

### -> Here are Your 4 Rewards for Subscribing to this Newsletter <-

\*\*\* Free Online IT Training Materials for Subscribers \*\*\*

This section of our site contains over 2,000 free IT, computer and programming training resource links

\*\*\* Free Online Computer Training and Tutorial Resources \*\*\*

Containing over 8,000 free IT training and tutorial resources, this section of our site is available only to our newsletter subscribers and web site members

\*\*\* Free e-Book: "Understanding Computer Security" \*\*\*

Our new e-book contains the best information from U.S. government agency computer security papers and guides and presents it in a coherent and understandable manner. My hope is that this e-book will make computer security easier to learn. Click here to receive your Free Copy: [http://intelinfo.hypermart.net/Understanding\\_Computer\\_Security.zip](http://intelinfo.hypermart.net/Understanding_Computer_Security.zip) (553 kb). When unzipped it is a windows executable.

And here is your fourth reward for being our subscriber: we'll show you how to get 50% more traffic to your site for free - Click on this link to sign up at the best free traffic generator on the web today: <http://tinyurl.com/4i2x>

## 2) The Best New Free I.T. Training & Tutorial Sites:

This section of our newsletter contains the best new free IT training and tutorial sites that we have found and researched in the last few weeks. These resources will be added to our Free IT Training & Courses page at <http://www.intelinfo.com/cat1.html>, our Free IT Tutorials and Guides page at <http://www.intelinfo.com/cat2.html>, or to our members' site.

### Information Processing & Technology - A Virtual Approach:

<http://wonkosite.ausbone.net/cybertext/>

This online course offers modules covering Information Systems, Algorithms and Programming, Artificial Intelligence, Computer Systems (hardware and software) and the Social/Ethical implications of Information Technology. Its emphasis is system development rather than the mere use of application packages.

---

### Basic Computer Concepts Tutorials:

[http://www.cs.usask.ca/research/research\\_groups/aries/projects/applets/tutorials/index.html](http://www.cs.usask.ca/research/research_groups/aries/projects/applets/tutorials/index.html)

This tutorial consists of 6 different sections, each designed to teach a different programming concept. These are: Stacks, Queues, Sorting Techniques, Trees, Searching, and Hashing.

---

### Featured Linux Resources:

<http://www-106.ibm.com/developerworks/offers/lp/linux/>

These are specially selected Linux resources from developerWorks and IBM product sites. This collection includes Web-based tutorials, on-demand Webcasts, classes in your area, offers for developerWorks CDs with Linux tools.

---

### Australia Linux Conference Proceedings and Recordings:

<http://conf.linux.org.au/>

All submitted papers and audio recordings of all the presentations are available free for the recently completed [Linux.conf.au 2003](#), which is Australia's national Linux conference. It was held at The University of Western Australia in Perth in January 2003.

---

**Your Name:**

**Your E-mail:**

**Your Friend's E-mail (use commas if more than 1):**

**Your Comments:**

Receive  
copy:

If you would like a **Free Copy** of our current IT Education & Training Newsletter without subscribing:

[Make us your homepage! \(IE only\)](#)

**Training Cafe:**

<http://www.trainingcafe.com/index.asp>

Offers several free courses, including these two:

**Internet Technology Series:**

<http://www.trainingcafe.com/about/itsdescription.htm> Seventeen modules introduce you to Internet technologies and get you started incorporating the Web into your classroom.

**Macromedia Fundamentals:**

<http://www.trainingcafe.com/about/mmfdescription.htm> These modules introduce Macromedia Web development tools: Macromedia FreeHand, Macromedia Flash, Macromedia Fireworks, Macromedia Dreamweaver, and Macromedia Director.

---

**Index DOT HTML and Index DOT CSS:**

<http://www.blooberry.com/indexdot/>

This site attempts to collect as much information as possible in one location about the HTML and CSS languages, and aims to be a practical reference resource for authors, concentrating on features that have been implemented in currently popular web browsers.

---

**The Database Central KnowledgeBase:**

<http://databasecentral.com/knowledgebase/>

This is the largest directory of database software information on the Net. It is a one-stop clearinghouse for information on database programming, tutorials, web connectivity, shareware, data warehousing, middleware, and more. Here are the Best and Coolest pages in Database Central: <http://databasecentral.com/knowledgebase/Cool/>

---

**PostgreSQL Introduction:**

<http://www.troubleshooters.com/lpm/200301/200301.htm>

Linux Productivity Magazine has a lengthy introduction to the PostgreSQL database available online.

---

**Web Services Architect Articles Archive:**

<http://www.webservicesarchitect.com/archives.asp>

Web services articles covering SOAP, WSDL, ebXML, UDDI, .NET, SUN ONE, WSFL, XML-RPC, XML, CRM, HRM, EAI, and ERP.

---

**Network Universe - The Online Networking Resource:**

<http://www.dtool.com/navarc.html>

These are excellent networking tutorial articles. Other pages on this site cover Security, Cisco, and an IPsec Glossary.

---

**The Mono Handbook:**

<http://www.go-mono.org/tutorial/html/en/index.html>

This is a collection of tutorials and quick start guides for Mono, the open source .Net Framework implementation. It covers the Mono runtime, the C# language, tools like the debugger, certain parts of the class library, the Database layer ADO.NET, and the WebSite Framework ASP.NET, as well as GTK#. This page has more Mono articles and tutorials:

<http://www.go-mono.com/papers.html>

---

**.Net Tips and Tricks:**

<http://www.pdsa.com/downloads/tipstricks.aspx>

Find a variety of samples, presentations and white papers filled with practical information, click on the links to open up the many free training documents.

---

**Wintellect.com:**

<http://www.wintellect.com/resources/>

Tutorials, Tips, FAQs, Newsletters, and Forums covering Microsoft .Net framework. (free registration required for tutorials)

---

**myITforum.com Articles:**

<http://www.myitforum.com/articles/>

Articles covering Windows and Microsoft technology, click on the topic title links for all articles in that topic.

---

---

### 3) New Free Computer IT Books, Publications & Book Sites:

Some of these web resources will be added to our Free IT Books page at [http://www.intelinfo.com/free\\_computer\\_books.html](http://www.intelinfo.com/free_computer_books.html) and some will be added to our members site.

**Unix, Linux, System Administration and Programming:**

<http://studio.openunix.org/pub/ebook/>

[http://studio.openunix.org/pub/ebook/pdf\\_docs/](http://studio.openunix.org/pub/ebook/pdf_docs/)

Here are some of the books here:

**Special Edition Using Java, Special Edition Using CGI, CGI Developer's Guide, HTML 4.0 Specification:** <http://ftp.openunix.org:81/pub/ebook/internet/index.html>

**Unix Unleashed:**

[http://ftp.openunix.org:81/pub/ebook/unix\\_unleash/index.html](http://ftp.openunix.org:81/pub/ebook/unix_unleash/index.html)

**Platinum Edition Using Visual Basic 5:**

<http://ftp.openunix.org:81/pub/ebook/vbasic/index.html>

**Visual C++ in 12 Easy Lessons:**

<http://ftp.openunix.org:81/pub/ebook/vc-12/index.html>

---

**Linux in the Workplace:**

<http://linuxpip.org/>

Whether you're somewhat experienced or completely new to computers, this book was written for you. It focuses on programs that are available for free, and on those you are most likely to need in a typical office, or even home, environment.

---

**2 Free Books by Bruce Perens:**

**The Linux Development Platform:**

<http://www.informit.com/content/downloads/0130091154.pdf>

**Embedded Software Development with eCos:**

<http://www.informit.com/content/downloads/0130354732.pdf>

---

**The Software Design and Development Book:**

<http://www.markwatson.com/opencontent/design.zip>

This book is a brand new book that is still incomplete. The author is releasing an early manuscript to get feedback on the topics that he has selected.

---

**New CHM format of the PHP Manual:**

<http://weblabor.hu/php-doc-chm/>

This is a new release for this format of the PHP Manual.

---

**Beginning Perl:**

[http://learn.perl.org/library/beginning\\_perl/](http://learn.perl.org/library/beginning_perl/)

This book is for those new to programming who want to learn with Perl. You will find it easier if you already have some basic programming experience, but the material covered can be mastered by anyone with just a text editor, some common sense and a computer.

---

**Design and Validation of Computer Protocols:**

<http://cm.bell-labs.com/cm/cs/who/gerard/popd.html>

<http://cm.bell-labs.com/cm/cs/what/spin/Doc/Book91.html>

The book introduces a sound discipline for the design of complete and consistent concurrent systems. The techniques explored in this book have been applied to the design of distributed systems, operating systems, telephone switching systems, and network protocols.

---

**Name Resolution and Browsing in Samba, Part 1:**

[http://www.oreillynet.com/pub/a/onlamp/excerpt/samba\\_chap7/index.html](http://www.oreillynet.com/pub/a/onlamp/excerpt/samba_chap7/index.html)

O'Reilly has made this chapter the book Using Samba, 2nd Edition available. It focuses on name resolution using WINS, which is supported by Samba with the nmbd daemon.

---

**17 Free E-Books on Internet Marketing and Promotion:**

<http://www.marketing-resources.com/ebook.html>

Free ebooks you can download here include: Online Stealth Marketing, 16 Easy Steps to a Web Business, Web Site Design Course, Ingredients for Success, Ezine Writer, and Your Own Internet Business.

---

---

**4) University Computer Science Course Sites Free to Browse and Study:**

These web sites will be added to our Free University IT Course Webs page at

<http://www.intelinfo.com/cat3.html>

**CS151 Fundamentals of Computer Science I:**

<http://www.cs.grinnell.edu/~rebelsky/Courses/CS151/2002F/Handouts/syllabus.html>

<http://www.math.grinnell.edu/~rebelsky/Courses/CS151/2001S/Handouts/syllabus.html>

This is an introduction to computer programming using Scheme, topics include algorithm design, coding, testing, debugging, documentation, procedural abstraction, and simple data structures.

**CS152 Fundamentals of Computer Science II:**

<http://www.cs.grinnell.edu/~rebelsky/Courses/CS152/2000F/Outlines/index.html>

<http://www.math.grinnell.edu/~rebelsky/Courses/CS152/2000S/Handouts/syllabus.html>

Study the design, analysis, and verification of algorithms. Includes a discussion of data abstractions and data structures.

---

**CSC 364 Computer Networks:**

<http://www.math.grin.edu/~rebelsky/Courses/CS364/2000S/Handouts/syllabus.html>

This course focuses on the communications protocols used in computer networks, and also considers the use of network architectures and protocol hierarchies to provide more complex services.

---

**CSC 302 Programming Language Concepts:**

<http://www.math.grin.edu/~rebelsky/Courses/CS302/99S/Handouts/syllabus.html>

<http://www.math.grin.edu/~rebelsky/Courses/CS302/98S/Handouts/syllabus.html>

Expand your knowledge of the programming language paradigms while investigating design issues in programming languages. Teaches students functional programming in Scheme, object-oriented programming in Java, and imperative programming in both languages.

---

**CSC-223 Software Design:**

<http://www.math.grin.edu/~rebelsky/Courses/CS223/97F/syllabus.html>

Study of software life cycle and its consequences, includes design, coding, testing, and documenting large software packages. Study issues in software engineering, human factors in computing systems, safety of software systems, and learn languages like Java, tools like Make and RCS.

---

**CSC-103 Problem Solving and Computing:**

<http://www.math.grin.edu/~rebelsky/Courses/CS103/98S/Handouts/syllabus.html>

This is an interesting course that combines a study of techniques of solving mathematical problems with allied programming exercises.

---

---

**5) The Best Suggested Sites from our Website Users** - Every month we feature the best suggested IT training and tutorial sites from our website visitors. Here are this month's sites:

**Bob Cerelli's Windows Page:**

<http://onecomputerguy.com/>

The main goal of this site is to provide clear, accurate and easy to understand information regarding Windows95/98/ME/2000/XP.

---

**ISAserver.org:**

<http://www.isaserver.org/>

Microsoft ISA Server Firewall and Cache resource site, very good tutorials for free.

---

---

**6) New Computer & IT Training & Tutorial Link & Resource Sites:**

These web sites will be added to our IT Links and Resources page at

<http://www.intelinfo.com/cat6.html>

**Coding Library:**

<http://www.nettrash.com/users/fdb/>

Link and resource site covering these categories: Applications, Architecture, Computer Science Databases, Multimedia, Networking, Operating Systems, Programming Languages and Tools, and more.

---

**Java Links:**

<http://www.akgupta.com/Java/links.htm>

This is a decent, though small, collection of free Java learning, tests and resource sites.

---

---

**7) I.T. Sites and Free Downloads Worth Mentioning:**

**OldVersion.com:**

<http://www.oldversion.com/>

If you are looking for an old version of any program, OldVersion.com should be your first stop. Older versions of programs, such as Real Player, are sometimes nice to install because of unwanted feature changes that are forced upon you.

---

**Amicron Global Search & Replace:**

<http://www.amicron.com/files/GlobalSearchReplace.exe>

Use this free utility to strip text out of a group of text files (great for web sites).

**Amicron NetBackup** network-based file backup utility:

<http://www.amicron.com/downloads/netback.htm>

---

**HP Test Drive: Linux:**

<http://www.testdrive.compaq.com/os/linux/>

HP Solutions Alliance offers a variety of operating systems for you to try out. Make sure your code runs on the most popular operating systems before your competitors do, or try out operating systems you don't have access to on your own systems. From HP's own Tru64 Unix to Linux to FreeBSD, you can try them out through Test Drive.

---

**Pentium optimization tricks:**

<http://www.xs4all.nl/~smit/pentium.zip>

This archive contains a good collection of pentium optimization documents, these are advanced and assume that you already know how to program in assembly language.

---

---

## 8) Question of the Month about Technical Training:

Each month Scott Turton will answer a current or important question that we have received about computer and IT training and career development.

**May 2003 Question of the Month #1:** Can you show me where to download good, free web master apps and utilities?

**Answer:** Here are some of the best sites for free resources for web masters:

Free Web Templates:

<http://www.free-web-templates-free-web-templates.com/>

<http://www.weballey.net/templates/>

<http://www.webtemplatesonline.com/webtemplates/index.php>

<http://winstart.com/template/>

<http://www.webdesignhelper.co.uk/> (also web and photoshop tutorials)

<http://www.the4bears.freemove.co.uk/>

<http://www.steves-templates.com/>

<http://www.freewebtemplates.com/>

35 Free Web Page Templates:

<http://web.thenetter.com/dloads/freetemps.zip>

Royalty Free Art and Free eBook:

<http://royaltyfreeart.com/free.html>

Free Clipart Network:

<http://www.free-clipart.net/cgi-bin/clipart/directory.cgi>

Handy ImageMapper:

<http://www.silveragesoftware.com/handytools.html> A great little freeware image map creation tool which supports BMP, JPG, PNG, and GIF file formats.

Colorificator:

<http://colourificator.sitekit.net/>

A color generation tool which will allow you to adjust RGB values and supplies you with the HEX values for the web.

Captureur:

<http://membres.lycos.fr/truillet/captureur.html> A quick and easy to use screen capture utility which is easy to use for quick screen capturing.

Deknop:

<http://home.hccnet.nl/s.j.francke/deknop/deknop.htm> A better than average button creator, giving you a great many options, with a very nice looking visual layout.

Shoestring's Picture Dicer:

<http://www.ziplink.net/~shoestring/dicer01.htm> A great app for slicing an image into a number of smaller images, works well for mouseover effects.

Font Viewer:

[http://www.blaiz.net/font\\_viewer.html](http://www.blaiz.net/font_viewer.html)

Fast loading, type in a word and see an instant preview of that word in all different font styles.

TextEffects:

[http://www.blaiz.net/text\\_effects.html](http://www.blaiz.net/text_effects.html)

This program lets you create 3d text for logos, icons and buttons, it's easy to use.

Free JavaScript Archive:

[http://web.thenetter.com/free\\_javascript\\_code\\_html\\_tools\\_copy\\_paste.html](http://web.thenetter.com/free_javascript_code_html_tools_copy_paste.html) Offers easy freeware JavaScript code for website effects such as Status Bar Tools, Pop-up windows, Browser tricks, Menu Builders, and more.

I hope this helps you.

Scott Turton

Web Master and Editor

<http://www.intelinfo.com/>

## Free I.T. Training Now!

A free and member-based I.T. educational and training portal web site. We have compiled, categorized, described, and linked many, many sites that will be of keen interest to computer science students and instructors and others seeking free training and knowledge about computers. All areas are covered, from programming to systems administration to networking to the internet. You are able to study and learn all about computers and I.T. via Free training, courses, tutorials, books, guides, documentation, articles, tips, notes, and help. Also offered are free technical training tutorials co-branded with [Beginners.uk.co/](http://Beginners.uk.co/). Check us out today.

Copyright Notice: Please note that all of the items hyperlinked are copyrighted by their authors and/or publishers. You are expected to look for, read, and adhere to such notices. Downloaded and online material is copyrighted whether or not a copyright notice is present.

---

### \*\*\*Intelinfo.com's Member Site \*\*\*

<http://www.intelinfo.com/sign-up/index.html>

Our Members' Site contains the web's best computer and IT training resources and tutorials. This content is individually linked and presented in a way to expedite and facilitate your IT learning experience. We have done all the web research and presentation work for you so you can concentrate solely on your computer training.

Intelinfo.com Member Site FAQ Answers:

1. Over half of the web sites and pages in our members site are not in the free section of our web site. The online training resources in our members' site are linked and laid out in a much more detailed fashion than those in the free section. This will save you time in finding all the best free training on the web.
2. If you use a credit card when joining, it will be billed by Verotel. When your membership period expires, you will be asked if you want to renew your membership, you will not be automatically charged another fee on your credit card or check.
3. You can also use PayPal to sign-up as a member of Intelinfo.com, just use this link: [http://www.intelinfo.com/links/become\\_a\\_member.html](http://www.intelinfo.com/links/become_a_member.html). If you register to pay \$10.00 (for 2 months access) via PayPal using this method, simply tell us in the 'Special Instructions' what you want for your user name and password.
4. If your country is not listed in the drop-down list, please use 2checkout.com to register as an intelinfo.com site member using this link: [http://www.intelinfo.com/links/intelinfo\\_member.html](http://www.intelinfo.com/links/intelinfo_member.html). I will then send you an email asking what you would like to use for your user name and password.
5. If you are looking for training and tutorials covering popular software such as Microsoft Office, Flash, Photoshop, Dreamweaver, Web Development, Windows and Computer Hardware, please see our sister site, <http://www.EducationOnlineForComputers.com>

The total price to join our member's site is only \$10 total for 2 months, \$18.50 for 4 months, or \$25.50 for 6 months. The funds generated will assist us to help all those seeking IT education and application development training. Here's the link to see what's available on our member's site and to sign up: <http://www.intelinfo.com/sign-up/index.html>. You can email Scott Turton with questions.

I will give you 8 great Free Bonuses when you sign up now. These are as follows:

1. A Comprehensive 47-page IT Glossary

2. How To Understand Windows Error Messages program
3. 105 Great Totally Free Utility Programs
4. A Bug Tracking Access
5. The Four Best IT Salary Calculator/Wizard sites
6. 12 Great Web Resources for Learning the Best Methods to Study and Take Tests
7. Six Great e-Books (a \$120 value) to help you Make Money using the Internet
8. Five extra bonus IT resource sites that are the best from our "worth mentioning" newsletter section
