## 1) Editor's Greeting:

Hello everyone, and welcome to our new subscribers!

Please note we have changed our domain name from [www.intelinfo.com](http://www.intelinfo.com) to [www.intelligentedu.com](http://www.intelligentedu.com). Please update your bookmarks and links to our site.

This is the August 2005 issue of our free monthly newsletter for Computer IT Education, Training, & Tutorial Resources providing you with the latest Free online IT Training Resources that we have recently discovered and researched. This newsletter is free to anyone subscribing ([instructions](#) at bottom, no username/password is needed). To access our member site, however, you do need a user name and password - registering as a member of Intelligentedu.com costs \$15 for two months, for more information please see [Become a Member of Intelligentedu.com](#).

My desire is that these free resources will help you with your computer education and training and are tools to advance your IT career. Our main mission is the training of those less fortunate who are seeking to become computer literate, both technically and from a user's perspective.

In this issue we describe and link to a total of 41 computer, IT and programming learning and tutorial web sites. By means of this email newsletter, you have knowledge of and access to these sites before our web site visitors do.

\*\*\*Current News \*\*\*

Please take a look at my **new blogs**, these will be updated weekly with new free training and tutorial web resources, as I discover and evaluate them:

**Please Visit Our New Free Training & Tutorial Search Engine - <http://www.edcomp.com>!** - We have deployed a new website at [Edcomp.com](#) that is a search engine with a large database of over 140,000 free IT education and training web resources, with another 50,000 free resources reserved exclusively for paid members. If you're an Intelligentedu.com Member, go to [members.Edcomp.com](#) to access the special members' page for searching over 190,000 free training web resources.

All of the links for these 190,000 free web resources have been validated, so you should not get any broken ones. We are also caching all previous results pages to help you find all the free training content and materials you need and are looking for. So check out our new free IT training search engine now, and if you'd like to, please provide me your feedback. Again, the url is: <http://www.edcomp.com/>. Thank you.

For your convenience, this newsletter is also available to subscribers in HTML format at this special url: [http://www.intelligentedu.com/current\\_news.html](http://www.intelligentedu.com/current_news.html)

I wish you the best with your computer studies and learning.

**Learn About Computers, Software Development, and Information Technology:**

[http://www.intelligentedu.com/computers\\_software\\_dev\\_it.html](http://www.intelligentedu.com/computers_software_dev_it.html)

In this new section of Intelligentedu.com you can learn all about computers, software development, and Information Technology, and how you can use computers to your advantage. Some articles here will help you in your everyday computer life; some are more concerned with programming software and computer science; while others inform you how information and data are logically managed, transformed and communicated in small and large environments. I will be adding more content to this new section in the future.

In this new section are the following excellent training books and courses for studying for the Linux LPI certification exams, and learning Linux system administration and the Linux end-user desktop.

**Free GNU/Linux LPI Training Manuals: LPI101, LPI102, LPI201:**

[http://www.intelligentedu.com/free\\_gnu\\_linux\\_lpi\\_training\\_manuals.html](http://www.intelligentedu.com/free_gnu_linux_lpi_training_manuals.html)

Each of these free training and tutorial LPI manuals are designed for a 3 to 4 day training course to prepare for the LPI certification exams.

**Linux System Administration Course:**

[http://www.intelligentedu.com/linux\\_system\\_administration\\_course.html](http://www.intelligentedu.com/linux_system_administration_course.html)

This course teaches you how to install, create and manage user accounts, install new hardware, make backups and many other mission critical tasks a System Administrator would need to know.

**Userguide to Using the Linux Desktop:**

[http://www.intelligentedu.com/userguide\\_to\\_using\\_the\\_linux\\_desktop.html](http://www.intelligentedu.com/userguide_to_using_the_linux_desktop.html)

This user guide is an introductory self-learning guide on how to use a personal computer (PC) running the Linux operating system. It assumes that the user has no prior knowledge of Linux or PC usage.

## **4) University Computer Science Course Sites Free to Browse and Study:**

These web sites will be added to our Free University IT Course Webs page at <http://www.intelligentedu.com/cat3.html>

**Open E-Commerce Courseware:**

<http://www.developer.ibm.com/us/en/university/scholars/courseware/>

IBM offers course materials to help you get started with many of their products and technologies. Included on their course ware page are resources to university e-commerce course materials and content that are freely available.

<http://turingmachine.org/opensource/>

The University of Victoria's Computer Science department's course in Open Source Software Development.

**Managing the Digital Enterprise:**

<http://ecommerce.ncsu.edu/topics/>

An Open-Education Curriculum that Uses the Internet to Foster a Global Understanding of E-Commerce (Professor Michael Rappa, North Carolina State University).

**Eclipse Community Education Project:**

<http://www.eclipse.org/ecesis/>

The goal of the Eclipse Community Education Project (ECESIS) is to promote the creation, improvement and distribution of commercial and academic quality Eclipse courseware, education and training technologies, and resource material.

**Intranets and Business Intelligence:**

<http://www.cs.depaul.edu/courses/syllabus.asp?course=ECT-480-802&q=2&y=2005&id=201>

Professor Jacek Brzezinski, DePaul University

**Omnexus: The Plastics e-Marketplace:**

[http://www.eci.gsu.edu/research/research\\_resources.asp](http://www.eci.gsu.edu/research/research_resources.asp) Case study that provides a detailed examination of Omnexus, an e-marketplace operating in the plastics industry Professor Arun Rai, Georgia State University

**E-Commerce Course Materials :**

<http://www.stern.nyu.edu/%7Ejlivnat/>

Focuses on three major components: Valuation of e-commerce firms, critical managerial issues for e-commerce operations and the underlying business models (Professor Joshua Livnat, New York University).

**Electronic Commerce Education Materials :**

<http://btl.bus.utexas.edu/IBMcoursemodules.htm> Course materials on new business models in e-commerce focusing on strategy, privacy, domain names and business method patents (Professors Sirkka L. Jarvenpaa and Emerson H. Tiller, University of Texas at Austin).

**5) The Best Suggested Sites from our Website Users** - Every month we feature the best suggested IT training and tutorial sites from our website visitors. Here are this month's sites:

**Techguider:**

<http://www.techguider.co.nr/>

A collection of FAQs for C, C++, C#, Java, ASP.Net, VB.Net, XML, HTML, SQL Server, and Oracle.

---

**PC Tech Guide:**

<http://www.pctechguide.com>

This site has lots of computer hardware information and articles.

**6) New Computer & IT Training & Tutorial Link & Resource Sites:**

These web sites will be added to our IT Links and Resources page at

<http://www.intelligentedu.com/cat6.html>

## 2 Sites for Links to Free Computer Books

Here are 2 resource sites that provide links to Free Computer and Technical Books, Tutorials & Lecture Notes.

### **Ju Rao's Homepage: Free Computer Books:**

<http://www.maththinking.com/boat/booksIndex.html>

### **Dhruvaraj Collection Of Free Online Books:**

<http://www.dhruvaraj.com/>

---

### **Iran Web Designer - Ebooks:**

<http://ebook.irdesigner.com>

This is a pretty good link site to many freely available books on the internet. Some of the links are broken, but many are not. Below are the topical starting pages.

PHP MySQL:

**8) Question of the Month about Technical Training:**

Each month Scott Turton will answer a current or important question that we have received about computer and IT training and career development.

**August 2005 Question of the Month:**

Please describe another method you find free computer training on the web, as you did in last month's question of the month.

**Answer:**

OK, here is another type of google search you can do to find the free computer training, tutorials and books that you are looking for. This is similar to last month's answer, except instead of keywords in the beginning of the search phrase. You will need to know the name of a book that is about the subject you are looking for.

Type in the exact name of a book that covers the topic you want to learn more about (in double quotes), followed by "(books OR tutorial) (pdf OR zip OR chm OR rar) -purchase -buy -shopping -review" without the double quotes.

Here are the URLs of 4 google searches using this method:

**Advanced Linux Programming:**

<http://www.google.com/..Google+Search>

**Mastering Enterprise Java Beans:**

Our Members' Site contains the web's best computer and IT training resources and tutorials. This content is individually linked and presented in a way to expedite and facilitate your IT learning experience. We have done all the web research and presentation work for you so you can concentrate solely on your computer training.

Intelligentedu.com Member Site FAQ Answers:

1. Over half of the web sites and pages in our members site are not in the free section of our web

site. The online training resources in our members' site are linked and laid out in a much more detailed fashion than those in the free section. This will save you time in finding all the best free training on the web.

2. If you use a credit card when joining, you may choose to be billed by PayPal, or you may purchase from 2checkout.com, our authorized retailer, whichever you choose.
3. You have a choice to select the non-recurring or recurring method of payment. If you select non-recurring, when your membership period expires, you will not be automatically charged another fee on your credit card or check.
4. If you are looking for training and tutorials covering popular software such as Microsoft Office, Flash, Photoshop, Dreamweaver, Web Development, Windows and Computer Hardware, please see our sister site, <http://www.EducationOnlineForComputers.com>

The total price to join our member's site is only \$15.00 total for 2 months, \$25 for 4 months, \$34 for 6 months, or \$59 for a whole year. The funds generated will assist us to help all those seeking IT education and application development training. Here's the link to see what's available on our member's site and to sign up: <<http://www.intelligentedu.com/sign-up/index.html>>.
